

16 December 1983

MEMORANDUM FOR THE RECORD

SUBJECT: Applicant Processing [REDACTED]

1. Approximately 21 November, DD/Pers discussed with C/IB the usefulness of staffing IB vacancies with applicants who would satisfy basic professional requirements with college degrees and would EOD straight into IB. DD/Pers suggested he had three applicant files generally in mind, but one in particular, i.e., [REDACTED] who might be available for reasonably prompt EOD. Our impression was that [REDACTED] was nearly cleared.

2. IB reviewed the applicant file, was favorably impressed and immediately advised the CMO in the person of [REDACTED] on approximately 24 or 25 November. [REDACTED] contacted [REDACTED] and advised her she was being considered for a technical position within OP. Subsequently, [REDACTED] asked to talk with IB management to clarify the "technical" job she was being offered. The interview was held on 13 December during which [REDACTED] raised the question of when she might come on board. IB checked with CMO to reinforce the information that [REDACTED] was being cleared on a priority basis. However, it appears that [REDACTED] is only in the early stages of processing with the requests for security clearance and medical applications having been submitted just this week. Our best guess is that the polygraph and physical will be scheduled about February and EOD may occur sometime in March 1984.

3. My feeling is that [REDACTED] was anticipating entry on duty much sooner than that as we were.

[REDACTED]
